

TOMBSTONE EPITAPH

PUBLISHED EVERY SUNDAY.

RECORDS OF COCHISE COUNTY

Instruments Filed With the County Recorder

THE RECORDS GIVEN IN BRIEF.

PAID SATISFACTION OF MORTGAGE
State Mut'l B & L Ass'n to J O Hassler, Douglas prop. 1 00

SATISFACTION OF MORTGAGE
Rosa M Killmer to Jo John J Peterson. 1 00

PROV MUT'L B & L Ass'n to Milford Pharr.

Arizona Bank & Trust Co to Earl A Hemphill. 1 00

PATENT
U S to Charles F Schumann, land. 1 00

Q. C. DEED

Andrew Johnson to M A Engesser, Lowell prop. 10 00

David Medigovich to Chris Medigovich, Douglas prop. 10 00

REALTY MORTGAGE
Rufus L Scott to State Mut'l B & L Ass'n, Douglas prop. 1500 00

BILL OF SALE

Geo P Medigovich to M C Medigovich, Bisbee prop. 800 00

REALTY MORTGAGE
M C Hankins to John Quinlan, Douglas prop. 600 00

ASSIGNMENT MORTGAGE
Earl A Hemphill to the Bank of Douglas. 500 00

SATISFACTION OF MORTGAGE
R L and Sue E Scott to Min & Mer Bank. 1800 00

CHattel Mortgage
M C Medigovich to Sam H Medigovich, Bisbee prop. 325 50

Ygnacio Campa to Joe Kline, personal prop. 50 50

WARRANTY DEED
L Grant Duncan to J Alvin Hill, San Simon prop. 100 00

Earl A Hemphill to Mrs J M McKnight, land. 50 00

Mr and Mrs J N McKnight to Earl A Hemphill, Victor prop. 1000 00

BOND FOR A DEED
Mines in California Mining District. 70,000 00

REALTY MORTGAGE
John Peterson to State Mut'l B & L Ass'n, Douglas prop. 1000 00

Lula S Anderson and husband to Mrs Emilia Soto, Wilcox prop. 750 00

CHattel Mortgage
J J Wien to Wilcox Bank & Trust Co. stock. 500 00

ASSIGNMENT OF MORTGAGE
Mrs Emilia Soto to Mrs L E Johnson, Wilcox prop. 750 00

SATISFACTION OF MORTGAGE
R M Moore to Fred Hedberg

Anastacia O'Brien, now Anastacia Michaux, to Mrs E E Bell

Provisional Mut'l B & L Ass'n to John Peterson.

MILLRIE CLAIM AND WATER RIGHT
Of 6 miners inches. John Thomas and T M Larrien locate Surprise in Whetstone M D. 10 miles from Turner.

HOMESTEAD CLAIM
George L Faley claims prop in Bisbee as homestead.

WARRANTY DEED
Phoebe Alice Livingston and D C Livingston to E R Fittle Co, Douglas prop. 10 00

NOTICE OF CLAIM OF POSSESSORY RIGHT
Mrs Abbie E Potter claims as a desert claim 160 acres land.

WATER LOCATION
Virtue Min & Dev. Co locates all the unappropriated waters of Cave Creek, being 10,000 miners inches near S B Road Homestead.

CERTIFICATE OF SALE

Re Treas. etc. vs. Manuela Marques. Territory to W S Dixon, Douglas prop. 68 96

Re Treas. etc. vs. Charles New. Territory to Sam Yarnell, Douglas prop. 63 63

PATENT

U S to Larimore Silver Min Co, mines in Swissheim Min Dist.

WARRANTY DEED

H A Look to Lily B Dugan, Douglas prop. 10 00

Tombstone Telephone Co to Mountain State Telephone & Telegraph Co, Tombstone prop. 1200 00

Sheldon Ijams to Mountain State Telephone & Telegraph Co. 4000 00

TRANSFER OF FRANCHISE

Of Tombstone Telephone Co to Mountain State Telephone and Telegraph Co, Tombstone. 1 00

SATISFACTION TRUST DEED
W M Fickas, vice pres., to Min & Mer Bank, Bisbee.

AFFIDAVIT
Lar y H Coville, secy. Ariz. Mut'l B & L Ass'n is the owner of trust deed made by Wm C Thatcher to Min & Mer Bank, in trust for Douglas Saving & Loan Ass'n for sum of \$2000.

AGREEMENT
Edward Sutton with Albert P Miller on sale of land. 302 50

Ship Chinese Remains Back to Native Land

The remains of several Chinese were exhumed from the old cemetery in Tombstone during the past week and prepared for shipment to San Francisco thence presumably to be sent to the Flowery Kingdom. The Daily Globe states that twenty iron boxes containing the remains of as many Chinamen, were recently shipped from Globe also for burial in China. Some of the remains were those of Chinamen here dead as long as 20 years ago. It was part of the contract with the Chinese company which brought them over that, in case of death, their remains be shipped back to their native land.

An Unusual Sight For Passengers

The curiosity of Arizona residents along the S. P. may be aroused at any time now by a sight of a long train of freight cars on a side track or passing through town, the cars all loaded with long sections of waterpipe and the waterpipe labeled "San Diego Exposition, 1915." The explanation of the unusual sight is this: The city of San Diego California, is preparing for the Panama California Exposition, to be held there throughout the entire year of 1915, and one of the first great problems that confronted the San Diego city fathers was to provide an ample water system for the great 1400 acre park, known as Balboa park, which has been chosen as the site of the exposition. The contract for this pipe was given to the United States Pipe company, of Birmingham, Alabama. It will require 375 flat cars to transport it to San Diego from the factory. These will be made up into thirteen trains, and these trains in moving from Birmingham, Alabama to San Diego, will pass over the rails of fourteen different railway systems.

WET DAY DEVELOPED INTO FLOOD

The present rainy season in Tombstone reached the "Flood" stage last night. A washout of political juggling is next and Arizona will follow up the good work.

From Wednesday's Daily

Miss Lucy Wolcott returned this morning from Berkeley, California, where she been for the past two months taking an advanced course of music. She was met at Fairbank by her brother, Newton, who motored down early this morning.

Frank Seaman is numbered among Tombstone's visitors today on a business trip from Douglas, where he is employed at the smelters.

Manager Harry Evans of the local telephone company went to St. David yesterday to repair the company's line at that point, returning home this morning about two o'clock. The delay occasioned by the heavy rains had in that section making it impossible to cross the several washes until the rain had subsided.

Sheriff John F. White left yesterday for Phoenix, from whence he will go to Los Angeles to visit his family, who are sojourning at the beaches.

Harry Kendall and E. K. Springer are in town for several days from the Kendall ranch located in the foothills of the Dragoon mountains.

Mrs. John Rock has gone to Bisbee on a visit with friends of several days.

W. F. Hall, a commercial drummer traveling out of Dallas, Texas, is a Tombstone visitor today on business matters.

Papers were received by the court clerk today from Douglas in the nature of an injunction which was issued by Judge Down, sitting in chambers, to prevent the levying on certain property of William Kline in Douglas to satisfy a judgment obtained in the justice court in favor of D. V. Cowley for alleged debt.

Not a single marriage license or application has been issued out of the probate court during the past three days.

Mr and Mrs. Frank Demarest are expected to return to Tombstone on Saturday, and a hearty welcome awaits them by their many Tombstone friends.

The local telephone company shortly expects the arrival of several carloads of poles, which will be used in replacing those in bad condition on the various lines leading out of Tombstone.

Frank Harmon, a mining man from Douglas and operating a group of claims in northern Sonora, came in on the noon train on business with the county recorder's office.

Clyde Ijams left this afternoon for Douglas, where he goes to meet a school chum who arrives in that city tomorrow from El Tigre, Mexico, enroute to Pittsburg on an extended visit.

MINING MEN VISIT TOMBSTONE

W. G. McBride, superintendent of the Great Western Mining company is in the city from Courtland. He states that the company is shipping regularly and that much development work is being prosecuted upon the properties.

John Gleeson, the well known mining man from the camp by that name, who was numbered among the visitors to Tombstone yesterday, stated that the outlook of the Gleeson district was never more promising and that early fall will see much mining activity manifested there.

William Holmes, president of the Leadville Mining company, is also in the city and is very optimistic as to the future of that section of the Dragoon mountains and much can be expected from those parts within a short time.

J. Penberthy, who is extensively interested in various mining properties in the Turquoise district, is numbered among the visitors today, and states that the several companies owning ground thereabouts are contemplating operations during the next few months.

E. A. Ely, general manager of the Mascot Copper company, operating extensively in the Dos Cabezas district, who was in the city yesterday, stated that several new strikes of importance had been made on his properties of high grade copper ore, and further that development work was being carried on on a large scale and the blocking out of many thousands of tons of copper ore continues daily.

Construction Will Begin This Month

F. L. Jones, who has had charge of the surveys made by the El Paso & Southwestern railroad extension to Tucson, was in Fairbank this morning. Mr Jones is now increasing his force so that he will be able to do the engineering work required in the construction work which is expected to be in progress by the middle of the month.

The contract managers are expected to arrive in Tucson on August 11th, according to latest information. The general office of the contracting company will be in Tucson, but there will be branch offices both at Benson and Fairbank.

Mr Jones said that he did not know just when construction would begin on the changes in the route of the old line between Lewis Springs and Fairbank, but stated that all the survey work had been completed and anticipated that this work would probably be undertaken in the near future, as it was badly needed.

Doings of The Board of Supervisors

At the meeting of the board of supervisors yesterday afternoon the matter of the territorial road was brought before that body and after considerable discussion the board ordered the clerk to notify the territorial board of control that the board of supervisors of Cochise county would absolutely refuse to make any levy for the further construction of the highway through Arizona unless it received positive assurances from that body that at least 80 per cent of local money raised for the purpose was spent within the confines of Cochise county. Should the board receive a favorable reply, it will at its next meeting levy a territorial road tax of 25 cents on the hundred, which will amount to about \$45,000.

The next matter of importance to occupy the attention of the supervisors were several committees from the northern part of the county who journeyed to the county seat in reference to road matters. C. M. Renaud, H. A. Morgan and others asked the board that the old county roads in the northern section of the county, which remain unsurveyed be surveyed. The roads in question are described as follows: From Wilcox to Pearce, Courtland, Gleeson and Forest Canyon from Wilcox to Dos Cabezas; from Pearce, east to Light and Turkey Creek. The board, after listening to the various committees ordered that the county surveyor be directed to make surveys of the above mentioned routes. It appears that the new settlers now coming into the valley are fencing in many parts of the unsurveyed county roads and for that reason it was deemed advisable to make the surveys.

Leave was granted to Dr Hickman, secretary of the county board of health, to leave the territory for 30 days.

The notary bond of J. E. Harrison was approved by the chairman.

The board approved the action of the Bisbee school trustees in withdrawing from the market a high school bond issue of \$92,000.

The sale of the Harford school bonds was confirmed by the board.

The board authorized the county treasurer to transfer the sum of \$12,000 from the general fund to the salary fund.

Constable Frank Clark of Douglas was granted a leave of absence of 30 days.

Jean Apadeco, an indigent of Wilcox, was allowed \$5 per month for maintenance.

The county surveyor was directed to survey the road from Harford to Ramsey Canyon and from Harford to Don Luis.

D. J. Darlington, owner of the skating rink at Prescott, was arrested today by the federal authorities, charged with discriminating against the uniform of the army and navy, in refusing admission to officers and privates to his rink while in uniform. He waived examination and was held to the federal grand jury.

The three and a half year old son of Mr. and Mrs. Thomas Barnett, lies critically ill at the family home in Cottonwood canyon, 18 miles east of Douglas, as the result of drinking strychnine from a bottle accidentally left within his reach.

New Cases Filed In Both Courts

PROBATE COURT

Estate Annie Meguire. Order appointing Joseph Meguire administrator.

Estate of Harry Reichart. Order to show cause why sale of real estate should not be made.

Estate of E P Ryder. Order fixing August 14 date hearing petition of Arthur J Benedict, for letters of administration. Hearing petition John Rock continuing to Aug 14th.

Estate of Paul Mitchell. H. L. Johnson, John F Crowley, Kaaper Hauser appointed appraisers, also order notice to creditors.

Estate of Chas J Riggs. Order notice to creditors.

DISTRICT COURT

Suit. The Citizens Bank & Trust Co vs W D Kinsey, executor of will Mary Kinsey.

Southern Pacific Grants Pension

John B Maper, a section foreman of the Southern Pacific railroad company, has been granted a pension on account of his long and efficient service to the road. He has been in the employ of the company on the New Mexico and Arizona branch since 1882.

The Southern Pacific wished to acknowledge Maper's service and took this way to show their appreciation. In addition to a substantial check every month he will receive several passes a year and also special rate tickets whenever desired. He will be given free medical and surgical treatment by the physicians in the employ of the road whenever he may have need for it.

Kermit Roosevelt on Arizona Hunting Trip

Kermit Roosevelt, son of former President Roosevelt, is due to arrive in Yuma August 19, to make preparations for a trip down the east shore of the Colorado river and Gulf of California in quest of hunting, adventure and exploring for information. Kermit is the lion hunter who accompanied his distinguished father to Africa on his celebrated big game expedition to that continent.

This information came in a letter to Postmaster R H Chandler of Yuma received about a week ago, from Theodore Roosevelt.

MAY RAISE MERCHANDISE ASSESSMENTS

The territorial board of equalization will again be in session on August 14th. It is stated upon good authority that that body will raise the stocks of merchandise throughout Cochise county, besides making raises upon certain mines in the county. Other items are also to receive a raise.

BULLETIN GAVE MUCH CHEER

The passage of the Flood resolution was announced in Tombstone last evening through the Prospector bulletin and was occasion of much rejoicing. It is popularly believed that President Taft will sign the bill giving statehood to Arizona when Tombstone will join in the real hearty jollification that will sweep Arizona.

Reports from the Verde valley are that heavy rains have done considerable damage to the hay crop.

Nearly three thousand crates of cantaloupes have been shipped from the Gila valley so far this season.

The Prescott Courier claims the honor of first discovering spots on the Phoenix Sun.

The railroads of Arizona complain that the tourist traffic from Arizona to the California coast points is far below of that in the former years and according to newspaper interviews with the traffic managers the cause is attributed either to the cool summer or lack of ready cash in the territory. The Prospector has good reasons to the belief that it is not the lack of funds which keeps Arizonans in so large numbers away from the beaches and coast resorts, but that Arizonans have had their eyes opened and are enjoying a real vacation in the mountains nearby. This is as it should be. Arizona mountain resorts are far more adaptable to those who wish for real rest during their month or two of vacation than are those at the seashore.

In the death of Colonel W C Greene, at Cananea, Saturday morning, Arizona and Cochise County in particular lost one of its most loyal friends, who for the past thirty years was actively engaged in the task of paving the way of progress in this section. Colonel Greene's life story reads like fiction. Coming here in his youth almost penniless he manfully faced the hardships and dangers which confronted the pioneers who came to Tombstone in the early eighties. First the deceased engaged in ranching and mining on a small scale and with judicious management he succeeded and his business interests with meteoric speed began to grow and spread until in the late years he was widely known as the "copper king of the southwest." In every sense of the word Colonel Greene was a typical Westerner. He was big hearted and would stand by his friends through thick and thin. In eternal peace may his soul rest.

Those who are industrious on the Cochise county's ranches are proving that farming pays if it is conducted on a business like basis. We know one rancher who is clearing over \$1200 this year from his apiary alone, and we know several who have neat and regular weekly income from poultry, and many of those who are marketing heavy fruit crops this season.

The Flood that started from Washington became a tidal wave of popular sentiment when the glorious news reached Arizona.

To Bill: You had your way on the reciprocity, now give Arizona a chance.

Hats off to the loyal friends of Arizona who did such noble work in Congress.

Gee! but the result brought out a sigh of relief.

Those ten progressive republican senators were not afraid of the recall when they lined up with the solid democracy for Arizona.

Arizona will vote for her first state officers in November and also definitely settle the recall.

Pamphlet on Cochise Resources

County Immigration Commissioner F D Myers has completed his booklet on Cochise county's various resources and advantages and the same is indeed a credit to that official. The booklet consists of 64 pages and most excellently sets forth in detail much valuable information. Birdseye views of the important towns of Cochise county, each covering seven pages in folder fashion, make an interesting addition, setting each town off at a great advantage. The cities included are Tombstone, Bisbee, Douglas and Courtland. Besides containing the various county and municipal buildings of Cochise, many views are given of the different sections including the agricultural and mining centers. A vivid description of all the towns is given, including street scenes and very interesting statistics of the county during the past year.

E.P. & S.W. Firemen May Go Out on Strike

Firemen employed on the Southwestern system have voted to go out on strike for the reinstatement of the three former firemen who were discharged from the service of the road. The poll of the road, the method used by the firemen to get a vote on the strike question, resulted in an overwhelming majority for the strike and the request for the proposed strike has been put up to the grand officers of

the Brotherhood of Locomotive Engineers, the union organization of the firemen.

No date has been set for the strike, as it will be necessary to get the sanction of the officials of the brotherhood higher up before any strike can be attempted. The brakemen may join the strike if called out.

The annual report of County School Superintendent E H Stover, which now rapidly nearing completion, shows that during the past school year the total sum of \$129,694.56 was expended in conducting the many schools of Cochise county, divided into the respective classes as follows:

Teachers' salaries.....\$104,122.07
Contingent expenses..... 22,967.52
School Books, apparatus
Furniture..... 1,441.67
Returned to general fund,
lapsed..... 1,163.90

Total expenditure.....\$129,694.56
From the various estimates made by the superintendent for the various school districts, the same to be reported to the board of supervisors at its next meeting for the purpose of making the School tax levy for the coming year, it is expected that the sum of \$150,000 will be required for the schools in addition to paying the deficit now existing in the school districts of the more thickly populated sections of the county.

Down in Graham county, John G. Morris picked 141 crates of cantaloupes from one acre of ground and that is not half the crop of that spot of the ground this season.
